

# SINGER®

# Studio S10

Now you can embroider without a computer! The SINGER S10 Studio embroidery machine features a built-in computer so you so you have everything you need to embellish at your fingertips. With this embroidery-only machine you can add a personal touch to garments you already own. With 55 ready-to sew embroidery designs, you can add a personal touch to any garment! Add a three-letter monogram to one of the 18 border patterns for a custom look. The large embroidery hoop allows you to add designs up to 5.5" x 5.5". The small embroidery hoop is perfect for baby onesies! With so many built-in possibilities you can make specialized gifts for your friends and family in no time!

### 55 Ready-To-Sew Built-In Embroidery Designs

Choose from holiday, floral, cross-stitch, craft, child's designs and more.

Simply scroll through the designs displayed on the LCD Screen until you find the design that's right for your project.

### 3 Built-In Lettering Fonts

Choose from Gothic font, Script font, Cheltenham font, in upper and lowercase. Also included are numbers and symbols. You can add create a basic three-letter monogram, names and phrases.

### Imagine The Possibilities!

#### 18 Built-In Border Patterns

Choose from floral, geometric, basic and more. Add a border pattern to a three-letter monogram for a complete look.

#### Built-In Memory

Edit and store designs in the built-in memory. The memory holds up to 100 design files!

#### USB Port for Additional Memory

Save edited designs to a USB memory stick (optional purchase) for future use or transmit designs from the Internet or your computer.

#### Two Embroidery Hoops Included

Competitive embroidery machines only include one hoop! With a large hoop area of 5.5" x 5.5", you get 89% more space than competitive embroidery machines. \*

#### Heavy Duty Metal Frame

Allows for skip-free sewing and overall durability.

#### Help Button

The one touch Help Button walks you through topics like Changing the Needle, Inserting the Bobbin, Threading the Machine and Winding the Bobbin.

\* Compared to Brother PE500, HE-1.

## Automatic Settings Eliminate Guesswork

### **Easy Threading with Automatic Needle Threader**

Sewing's biggest timesaver easily threads the needle without eye strain. Simply follow the instructions printed on the machine for accurate threading

### **Top Drop-In Bobbin System with Clear View Bobbin**

The bobbin loads from the top, so it is easy to insert. The clear view cover allows you to monitor the thread supply.

### **Automatic Presser Foot Sensor**

If you press the start/stop button without lowering the presser foot, a warning message appears on the LCD screen.

**High Sewing Speed** of 650 stitches per minute. That's 63% faster than the leading competitive embroidery machine.

### **Built-In Sewing Space Light**

The built-in Sewing Space Light keeps your workspace illuminated.

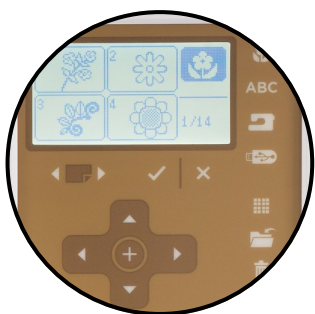

### **Customize Designs**

You can create custom embroidery by combining the built-in designs. Then edit the designs to fit your style!

### **Basic Editing Capabilities**

You can resize, rotate, mirror image, and combine the patterns to create your own original embroidery designs.

### **Large LCD Touch Screen**

Displays design size, number of colors, hoop needed and more! Use the Brightness Control to adjust the screen's light.

### **Two Embroidery Hoops**

With embroidery field sizes of 5.5" x 5.5" (140mm x 140mm) and 2" x 2" (50mm x 50mm) you can embellish a variety of items including baby onesies!

### **Adjustable Thread Tension**

Ensures stable stitch quality regardless of fabric type. Simply turn the dial on the front of the machine for even stitches. For most embroidery projects, a thread tension of 3, 4 or 5 is sufficient.

### **Horizontal Thread Delivery**

Good stitching comes from good thread delivery. Use the auxiliary spool pin when you need to wind the bobbin without unthreading the machine while working on an embroidery design. You can also use the auxiliary spool pin when working with larger or oddly-shaped thread spools.

### **Carry Handle**

Allows you to take your machine to class with you!

### **Extra-High Presser Foot Lifter**

Helpful when hooping bulky fabrics

## Embroidery Made Easy

You can have the measurements display in inches or millimeters!

Choose from 11 languages to be displayed on the LCD screen.

Easy Thread Selection! There are three brands of embroidery threads to choose from (Robinson-Anton, Madeira, Mettler). Press the corresponding icon of the thread brand you wish to use. The color number of the selected brand will be shown on the embroidery screen

The Color List screen displays the sewing order of the thread color, color code of the thread, name of the color and stitching time.

Ready to Sew Screen displays complete image of the selected design, sewing time in minutes, number of colors in the design, design size and hoop size.

### **Trace Design Button**

Simply press the Trace Button and the hoop will move and "trace" the outline of the design. This allows for accurate design positioning on your projects.

### **Template Sheets & Hoop Templates**

Use the template sheets included with machine to mark precise center lines for the built in designs.

### **Color Change Option**

The Color Change icon allows you to sew multi-color letting when monogramming!

### **Repeat Patterns for A Custom Look!**

Embellish large items like tablecloths, window treatments & crib bumpers.

### **Embroidery Designs CD**

The CD offers a large menu of creative embroidery designs to sew on the SINGER® Studio S10 embroidery machine. The collection offers appliqué, cross-stitch, emblems and much more.

### **Template Sheets & Hoop Templates**

Use the template sheets included with machine to mark precise center lines for the built in designs. Set the template sheet on the fabric surface in the location where to want to embroider your design.

### **Included Accessories**
